Working With The Dataset

- Understand the Dataset
- Load the Dataset
- Perform Joins of the Dataset tables

Understand the Dataset

The data set can be downloaded from the Links :

<https://www.kaggle.com/patrasaurabh/airstats-data-on-airports-aroundthe-world>

loading data set :

The screenshot displays the IBM Cognos Analytics with Watson web application. The interface includes a top navigation bar with the IBM logo and a search bar. Below the navigation bar, there are four main sections: 'Upload data', 'Prepare data', 'Exploration', and 'Present data'. The 'Recent' tab is selected, showing a table of uploaded files. The table has columns for 'Name', 'Location', 'Type', and 'Last Accessed'. Three files are listed: 'region.xls', 'airports.csv', and '50_Startups.csv'. Each file has a checkbox, an upload icon, and a file type indicator (xls or csv). The 'Last Accessed' column shows the date and time of the last access for each file.

Name	Location	Type	Last Accessed
<input type="checkbox"/> region.xls xls	My content	Uploaded file	11/9/2022, 10:16 AM
<input type="checkbox"/> airports.csv csv	My content	Uploaded file	11/9/2022, 10:14 AM
<input type="checkbox"/> 50_Startups.csv csv	My content	Uploaded file	9/20/2022, 3:16 AM
